

The British Miracle That Creates SUPER PLANTS

IN THE GARDEN—IN THE HOUSE

Yes! From the greatest gardening nation on earth — England — comes a fantastic discovery! Developed by Britain's leading gardener — winner of the famed Victoria Medal for horticulture! Already used today by OVER THREE MILLION British gardeners! And now released to you — through this advertisement only — to try in your own garden WITHOUT RISKING A PENNY!

Think of it! Here is a gardening development that almost defies belief! It is a CONCENTRATED GROWTH FORMULA, prepared in the form of tiny pellets! It costs only pennies per treatment! And even a child can drop them in the ground in as little as ten seconds.

But once these tiny pellets are placed near the roots of your starved plants, they perform a scientific miracle that has been every gardener's dream for centuries! They SLOWLY — AUTOMATICALLY feed your plants the life-giving nutrients they need — CONCENTRATED RIGHT AT THE ROOTS OF THESE PLANTS — POURING LIFE-GIVING ENERGY INTO THE VERY HEART OF THOSE PLANTS — DAY AFTER DAY — THROUGH EVERY VITAL STAGE OF THEIR GROWTH!

Just picture this breathtaking scene to yourself. The first result you will notice — almost immediately — is that these amazing English pellets give your plants a tremendous new burst of growth! Whether your plants are new or old — they send out dozens of hidden shoots and buds! Some of your plants may actually DOUBLE in height and breadth in the very first month!

But this is just the beginning! Within one or two short weeks — without you even touching your plant these amazing pellets AUTOMATICALLY aid your plants in the second vital stages of its growth! Automatically — still more wonder-working nutrients enter into every cell of your plants' bodies — fill those cells with health and strength and sturdiness and wonderful new resistance to disease and pests! Great, tall stems stand up with military

precision! Giant buds begin to swell with vigor and vitality! Even tired old shrubs that you had almost given up for lost — begin to straighten out — fatten up — send out the young green growth that you had never hoped to see again!

And then — the most remarkable part of all! When these fantastically beautiful plants have reached their full glorious height and strength, simply drop another Magic Pellet next to them! These tiny English pellets automatically liberate still more wonder-working ingredients! These final concentrated stimulants pour into your roots — carried up through the stems and trunks and branches of your plants — are finally delivered to the great giant flower buds at the top of those plants.

And when those precious ingredients reach those ripe buds — THEN YOU WILL BE BLINDED BY THE EXPLOSION OF COLOR THAT GREET'S YOU IN YOUR GARDEN!

"Enclosed pictures show sun flower eleven feet high, with a twenty-eight inch flower head. I didn't heed your warning about dwarf plants however, and experimented with an indoor Rex Begonia. To my surprise and amazement of others we saw a Rex-Begonia of such monstrous size."

— G.E.F., San Diego, Calif.
"This squash was 7 1/2 inches across, 22 3/4 inches around, and 3 1/2 inches thick. I have never seen such a huge squash before—the results were unbelievable."

— Mrs. D.D.F., Houston, Texas
"Your claims for the Magic English Pellets are not exaggerated one bit as far as bulbs, flowering shrubs and roses are concerned. I have not yet tried the pellets on vegetables, but would expect the same results. I was raised in a nursery and have had considerable experience with shrubs and roses. Your product is the best fertilizer I have ever used. It is much more economical than liquid or solid fertilizers now on the market."

— C.A.S., Augusta, Maine
"Enclosing a snapshot of a cabbage I raised last year with the use of two of your Magic Pellets, and it weighs twelve pounds. My roses, sansevierias, flags, tomatoes, dahlias were the largest and most colorful and beautiful in the block. All the neighbors made a path to my flower garden to see what wonders were being formed and my garden was the topic of this block. I shared my pellets with my friends and their flowers that were almost dead came to life!"

— Mrs. R.H.D., Nashville, Tenn.

"My zinnias grew six feet high, the blooms were bigger than tea saucers. I had marigolds bigger than teacups, they grew six feet tall; everyone came to see them."

— Mrs. G.M., Cartersville, Ga.

"I never saw anything in my life do so much good. I had the most beautiful roses in town last summer, and my mums were just covered with blooms. I had to pinch them back more than usual but they were the talk of the town — I sold so many."

— Mrs. L.C., St. Charles, Mo.

"Two of my rose bushes died all the way to the crown — I put these pellets around them and now they came back to life and are growing new stems. I also put some pellets around in row of hollies and they grew twice their size in just one season."

— Mrs. F.F., Shreveport, La.

"I have no garden now and use your tablets only for house plants. My African violets have been a mass of blossoms for months. The strawberry plant is growing like a weed, and another violet which did nothing for a long time is developing flower buds now."

— A.M.M., Buffalo, N.Y.

"I am five feet two inches and our gladioli towered above me and they were the most beautiful ones I have ever seen, and I know what garden beauty is because I am from Durham, England, and before my father's death he won many trophies in flower shows, but my flowers and tomatoes outdid anything I have ever seen after using your pellets."

— Mrs. J.M., Tileria, Ala.
